

7 ways to embed Accelerating Progress

Building confidence at Key Stage 3

Students in Years 8 and 9 explore the more challenging aspects of the English and mathematics GCSE before starting Key Stage 4.

After-school intervention sessions

Accelerating Progress lessons are timetabled at the end of the school day for students at risk of not securing a grade 4 or 5.

Targeted intervention from a SENCO

Sessions delivered by your SENCO on a rolling basis to target students at risk of not securing a grade 4 or 5.

Study sessions for Pupil Premium learners

Year 10 and 11 Pupil Premium students at risk of not securing a pass in English or mathematics undertake targeted weekly study support sessions.

February half-term and Easter revision sessions

Learners work through Accelerating Progress courses to focus on aspects of the English or mathematics specification.

Replacement for bucket two subjects

Students are removed from one or two of their bucket two subjects to focus on Accelerating Progress courses and ASDAN's CoPE qualification at Level 1 or 2.

Year 12 and 13 supported study

Students retaking their English or mathematics GCSE complete the Accelerating Progress courses with the support of a teaching assistant or other non-specialist.
